

WORLD'S SHORTEST SURVEY ON

RAISING CHRISTIAN CHILDREN

Bruce and Jim are discussing whether Christian children should be put in public schools.

➤ **JIM** says that Christian children must stay in public schools to be “salt and light” and serve as missionaries.

He says the Great Commission requires us to go into *all* the world and believes that to use Christian schooling or home schooling would be to retreat behind the four walls of the Church and ignore society.

➤ **BRUCE** says that public schools are undermining Biblical values and that it's *unbiblical* to render our children to Caesar for schooling.

He points to research* showing that most children from Christian homes leave the church after high school and that not many have a Biblical worldview by the time they graduate from public schools. He believes that Christians should not educate their children in anti-Christian institutions.

* Composite results of research by George Barna, Nehemiah Institute, and Southern Baptist Convention.

“IF YOU SEND THEM OFF

to some public school, keep in mind that you are shooting dice with your children’s eternal souls. It is a gamble that no Christian should be willing to make.

“Don’t send an eight-year-old out to take on a forty-year-old humanist... I have never seen any people more unhappy than fathers or mothers who have come to me and said, ‘Where did we go wrong? We gave him everything, and now he’s turned his back completely on everything we believe.’ Yes, they gave him everything but a Christian education.”
